Education

Chennai Institute of Technology Batch 2024 - 2028
Bachelor of Engineering – Electrical and Electronics Engineering (CGPA: 8.16) *Salem, Tamil Nadu*

- **Relevant Coursework:** Data Structures and Algorithms (C), Measurements Instrumentation, Signals and Systems, Microprocessors and Microcontrollers, Electrical Machines I.

Experience

NLC INDIA LIMITED 19 May 2025 – 13 June 2025
Electrical Intern *Neyveli, Tamil Nadu*

- Assisted in the operation and monitoring of boiler, turbine, and generator systems, gaining practical exposure to large-scale thermal power generation.
- Supported maintenance of switchgear, transformers, and protection systems, improving understanding of high-voltage equipment safety and reliability.

Steel Authority of India Limited (SAIL) 14 June 2025 – 30 June 2025
Electrical Intern *Salem, Tamil Nadu*

- Gained hands-on exposure in SMS, HRM, CRM, MRSS, and ERW, working on maintenance of motors, transformers, and switchgear systems.
- Assisted in preventive and corrective maintenance tasks, improving knowledge of power distribution, protection systems, and industrial automation.

Projects

Fixed-Wing Aircraft | *SolidWorks, MATLAB, XFLR5, Arduino, Overleaf (LaTeX)*

- Worked as part of a team of 10 members to design and fabricate a **4 kg fixed-wing RC aircraf**t with a 0.5 kg payload capacity, focusing on avionics and documentation.
- Contributed to the avionics system, including sensor integration, control electronics, and reliable communication setup with RC components.
- Assisted in validating flight performance during testing and evaluation, supporting the team in achieving successful sustained flight.

Certifications

NIELIT Calicut : Completed a certified course on "Embedded for Beginners" conducted by NIELIT Calicut. Gained foundational knowledge in embedded systems and microcontroller-based programming.
LinkedIn Learning : Completed a certified course on "Electronics Foundations: Fundamentals" from the LinkedIn Learning and received the Certificate.
Cisco Networking Academy: -Completed **"Programming Essentials in Python"** and **"Introduction to Data Science"** from Cisco Networking Academy and received the Certificate.

Technical Skills

Languages: C, C++, Python, HTML, CSS, Java, JavaScript, Verilog, LaTeX
Technologies: Arduino, Embedded Systems, Microcontrollers, Power Electronics, Electrical Machines
Concepts: Signal Systems,Circuit Analysis,Electrical Machines,
Tools Software: Arduino,MS Office/Excel,Overleaf (LaTeX), Git/GitHub

Achievements

- Shortlisted for CITIL's SDG Hackathon '25
- SkillRack – I solved more than the 200+ Problem.
